Right now we provide Android app for flight search engine you can see the demo here

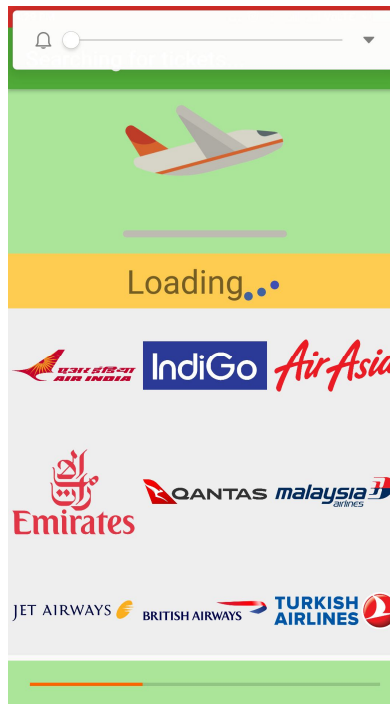

<https://play.google.com/store/apps/details?id=com.tag.btg>

What all detail needed from you so we can make it ready and provide you the .apk file

- 1) Register here <https://www.travelpayouts.com>
- 2) Get your " **Your API token** " and " **Your marker** " from this link <https://www.travelpayouts.com/developers/api>
- 3) Provide us your splash screen image should be 720 px width and 1280 px height for ex.

- 4) Provide 2 color combination you need in your app
- 5) Images for search page for airlines image and header image see ex.

- 6) Name of app
- 6) App icon

Then send all this detail to below mention email id also we can verify your order and start making the app for you once ready we will send you the .apk file you can test it in your mobile . Then after conformation you will provide you final .apk + project file + key for build .This will take up to 7 working days.

However any issues just mail us at
